About

I specialize in designing user flows, user interfaces, and front-end web development using HTML/CSS and JavaScript. I have been developing my skills for over ten years to get the job done quickly and effectively.

Responsive application design is my newfound love and I enjoy designing and developing web and mobile apps for all platforms, devices, and screen sizes.

In my free time I enjoy photography and playing Cricket.

Skills

My skills include, but are not limited to:

- HTML
 - Responsive Layout
- CSS
 - Media Queries
- JavaScript
